## Finance for Everyone

In this Finance Specialization, learners not only developed financial awareness and literacy around core concepts like wealth, value, markets, and debt, but also explored the impact financial decisions have on our lives and the world. Using case studies, financial tools, blogs, and multimedia, the course guided learners through the often confusing, fast-paced nature of finance. Learners completed a Capstone Project at the end of the Specialization by developing a portfolio to highlight their new knowledge and skills.
