

4 Courses

**Programming Fundamentals**  
Writing, Running, and Fixing  
Code in C  
**Pointers, Arrays, and  
Recursion**  
**Interacting with the System  
and Managing Memory**

Mar 5, 2024

## Anshul Chauhan

has successfully completed the online, non-credit Specialization

# Introductory C Programming

This specialization develops strong programming fundamentals for learners who want to solve complex problems by writing computer programs. Through four courses, you will learn to develop algorithms in a systematic way and read and write the C code to implement them. This will prepare you to pursue a career in software development or other computational fields.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

A handwritten signature in black ink.

Andrew D. Hilton  
Associate Professor of  
the Practice  
Electrical and Computer  
Engineering

A handwritten signature in black ink.

Genevieve M. Lipp  
Assistant Professor of  
the Practice  
Electrical and Computer  
Engineering  
Mechanical Engineering  
and Materials Science

A handwritten signature in black ink.

Anne Bracy  
Senior Lecturer  
Computer Science,  
Cornell University
