PROFESSIONAL SUMMARY

Software Engineering student skilled in backend development, REST APIs, debugging, and automation workflows using Java, JavaScript, Python, Spring Boot, and Node.js. Strong foundation in scalable systems, MySQL, Redis, troubleshooting, and production-oriented problem solving.

CORE SKILLS

Languages	Java, JavaScript, Python, SQL
Frontend	HTML, CSS, React.js, Tailwind CSS
Backend	Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication
Databases	MySQL, MongoDB, Redis
Tools & Platforms	Git, GitHub, Linux/Unix, Postman
Core Concepts	Debugging, API Integration, Automation, Troubleshooting

PROJECTS & TECHNICAL EXPERIENCE

CollabSpace – Real-Time Collaboration Platform

GitHub

- Developed a real-time collaboration platform using Node.js, Redis, MongoDB, and Socket.IO.
- Built secure authentication and scalable event-driven messaging workflows.
- Designed low-latency backend systems for seamless real-time communication and debugging.

Job Portal – Microservices-Based System

GitHub

- Built scalable microservices using Spring Boot and REST APIs for authentication, jobs, and applications.
- Implemented JWT authentication, MySQL database integration, and inter-service communication.
- Automated backend workflows and optimized API request handling for better reliability.

CrickGPT – AI Classification & Commentary System

GitHub

- Built an AI-powered system for match prediction and automated commentary generation.
- Developed scalable backend workflows and structured API-based response pipelines.

VaultLend – DeFi Lending Protocol

GitHub

- Created a decentralized lending platform with borrowing, collateral, and financial workflow logic.
- Integrated asynchronous backend operations and API-driven financial workflows.
- Developed structured backend modules for reliable transaction processing.

ACHIEVEMENTS & CERTIFICATIONS

Web Development Fundamentals	IBM SkillsBuild	View
Nutanix Certified Associate (Multicloud Infrastructure)	Nutanix	View
Cloud Computing Foundations	Duke University	View

EDUCATION

2023–Present	B.E. Computer Science Engineering , Chitkara University, Punjab	CGPA: 9.17
2023	Class XII , GMSSS, Chandigarh	80%
2021	Class X , Little Flower Convent, Panchkula	94%
